SEAMAP PROJECT

The SEAMAP project addresses **the need for cooperation between VET and the world of work in the maritime sector by introducing systematic approaches to and opportunities for VET and the maritime sector**, fostering integration of maritime working life into maritime institution-based VET and enhancing the entrepreneurial skills of the people dealing with the maritime issues.

The project has four main objectives:

- to support internationally recognized seafaring qualifications as a response to **current identified shortages of seafarers and employees at shipbuilding sector**.
- to **create opportunities** for young trainees and maritime personnel to find jobs commensurate with their qualifications
- to develop **the entrepreneurial competences** at sea or ashore
- to create **a web based platform** to unify job-seekers, trainees and job placement providers in a medium which will allow both parties easier access to jobs and bring employees/trainees together respectively.

Co-funded by the
Erasmus+ Programme
of the European Union

The SEAMAP Project has been funded by the Erasmus+ Programme of the European Union. However, European Commission and Turkish National Agency cannot be held responsible for any use which may be made of the information contained therein.

KICK-OFF MEETING IN ISTANBUL

The project, launched by the kick-off meeting, was held on 12 February 2018 in Istanbul where the important representatives from maritime and vocational-education-training (VET) sectors participated. The event was hosted by Lucent Maritime, a subsidiary of LAM Group of Companies.

After the official launch of the project, the partners were gathered to discuss the project and the task distributions.

THE 2nd “SEAMAP” PROJECT MEETING FOCUSING ON MARTIME CAREER PLATFORM WAS HELD IN SPAIN

The 2nd Transnational Project Meeting of SEAMAP project was held in Cala d’Or, Mallorca, Spain between 4-5 June 2018. The project meeting was hosted by project partner; Sea Teach. The participants coming from Lucent Maritime (project coordinator), Tuzla Kaymakamligi (District Governorship), Turk Loydu, Constanta Maritime University, Danmar Computers and Sea Teach gathered to discuss about the project progress, interim report, supporting documents, to identify the basic principles, tasks, methods and strategies for developing the action plan in order to address the intellectual outputs, activities and the events in the following months.

Maritime Job Profiles (O1)

The maritime job profiles in Turkey, Spain, Poland and Romania have been collated, classified and mapped by the partnership:

The main methodology of this output activity was to collate, classify and map the available maritime jobs for Shipbuilding and Nautical professionals in all partner countries, taking into account ISCED-97, EQF and STCW2010 competencies and European and national requirements.

The list of jobs is extensive and cover all jobs related to maritime. Each partner made an extensive research on maritime jobs in each participating country.
