July 2019

Issue 4

“Searching the Extensive Application at Maritime Protocol (SEAMAP)”

SEAMAP PROJECT

The SEAMAP project addresses the need for cooperation between VET and the world of work in the maritime sector by introducing systematic approaches to and opportunities for VET and the maritime sector, fostering

integration of maritime working life into maritime institution-based VET and enhancing the entrepreneurial skills of the people dealing with the maritime issues:

www.projectseamap.eu

The web based maritime platform (O2) has been developed to gather the job-seekers / trainees / students, companies and training institutions together: www.see4sea.com

Entrepreneurship Training Material for Maritime Sector:

This training material (O3) has been developed within the SEAMAP project in order to improve the entrepreneurial competences

at sea or ashore including maritime service sector and ship building sectors.

Download the material as PDF:
