SEAMAP Project

The SEAMAP project addresses **the need for cooperation between VET and the world of work in the maritime sector** by introducing systematic approaches to and opportunities for VET and the maritime sector, fostering integration of maritime working life into maritime institution-based VET and enhancing the entrepreneurial skills of the people dealing with the maritime issues:

www.projectseamap.eu

What we have aimed

The project has four main objectives:

- to support internationally recognized seafaring qualifications as a response to **current identified shortages of seafarers and employees at shipbuilding sector.**
- to **create opportunities** for young trainees and maritime personnel to find jobs commensurate with their qualifications
- to develop **the entrepreneurial competences** at sea or ashore
- to create **a web based platform** to unify job-seekers, trainees and job placement providers in a medium which will allow both parties easier access to jobs and bring employees/trainees together respectively.

About us

The SEAMAP project consortium consists of following organisations:

- **Tuzla Kaymakligi – District Governorship** (www.tuzla.gov.tr), TR
- **Turk Loydu** (www.turkloydu.org), TR
- **Sea Teach** (www.sea-teach.com), ES
- **Danmar Computers** (www.danmar-computers.com.pl), PL
- **Constanta Maritime University** (<https://cmu-edu.eu/en/>), RO

The project is coordinated by

- **Lucent Maritime** (www.lucentmaritime.com), the first MLC certified company operating crewing services based in Istanbul – Turkey. Lucent Maritime is a subsidiary of LAM Lyonel A. Makzume Group of Companies: www.lam-world.com

The benefits of the project

The main benefits of the project are

- to improve the attractiveness of the maritime industry,
- to provide increased mobility across,
- to foster the career guidance, to enhance the placement opportunities and
- to develop the entrepreneurial competences of the people at maritime and VET sectors.

Project deliverables

The SEAMAP has been implemented to develop innovative deliverables (intellectual outputs) for maritime sector:

Maritime Job Profiles (O1): The main methodology of this output was to collate, classify and map the available maritime jobs for Shipbuilding and Nautical professionals in all partner countries (Turkey, Poland, Romania and Spain). The maritime jobs have been classified, collated and compiled.

See the maritime job profiles:

www.projectseamap.eu/results

Maritime Career Platform:

The web based platform has been developed to gather the job-seekers / trainees / students, companies and training institutions together.
